

Ideation Phase

Empathize & Discover

Date	27 June 2026
Team ID	
Project Name	House Rent
Maximum Marks	4 Marks

Empathy Map Canvas:

The Empathy Map Canvas helps us understand the needs, thoughts, emotions, and challenges of renters and property owners using the House Rent platform. By analysing the users' experiences and expectations, we can design a user-friendly rental management system that simplifies property search, booking, property listing, approval, and secure payment. This approach ensures that the platform effectively addresses real-world rental problems while improving the overall user experience.

It is a useful tool to help teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.
