

Project Design Phase
Proposed Solution Template

Date	29 June 2026
Team ID	
Project Name	House Rent
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Difficulty in finding verified rental properties and managing bookings through manual methods.
2.	Idea / Solution description	House Rent is a web-based House Rental Management System developed under the application name Home Sphere. It provides a centralized platform where renters can search and book verified rental properties, property owners can upload and manage listings, approve booking requests, and administrators can monitor users, properties, and bookings through secure role-based authentication, making the rental process efficient, transparent, and user-friendly.
3.	Novelty / Uniqueness	Provides a centralized platform with separate modules for Admin, Owner, and Renter along with booking approval and transaction tracking.
4.	Social Impact / Customer Satisfaction	Simplifies the rental process, improves transparency, reduces fraud, and enhances user satisfaction.
5.	Business Model (Revenue Model)	Revenue through premium listings, featured advertisements, owner subscriptions, and booking commissions.
6.	Scalability of the Solution	Can be extended with online payments, AI recommendations, Google Maps, notifications, chatbot, and mobile application support.
